that link doesn't work. my computer says file not found

Right — that "download" link only works inside this chat's sandbox, not directly on your PC.

Here's how to get it running on your computer:

1. **Download th** Download file **from here**

   Click to open wind_river_manager.html

   (If it just opens in your browser, right-click and choose "**Save As…**" → save it to your Desktop.)

2. **Run it**

   - Find the saved file on your Desktop (or wherever you saved it).
   - Double-click it. It should open in y ↓ default browser.
   - Everything runs locally — no internet needed except if you want to back up to
